Lab 2:

Database Schema

Use our database Ecommerce to complete the task.

Task: Imagine you are managing an e-commerce platform, and the holiday season is approaching. To capitalize on the festive spirit and boost sales, you decide to organize a special seasonal sale featuring electronics. The goal is to offer discounts on electronics and include products with a price less than rs. 70,000 in the promotion. Write a query to find products from the "product" table that are either in the 'Electronics' category or have a price less than 70000.

Hint: Use Or operator to retrieve product details.
